

Submitting a Paper or Poster Digest

Papers and posters for the technical streams at INTELEC® 2019 are selected by blind peer-review of submitted digests/abstracts. The digest should consist of sufficient material and information considered necessary by the author(s) to demonstrate relevance and technical merit of the paper. Digests should not be shorter than 400 words and preferably no more than three (3) A4 pages inclusive of any diagrams, tables and/or figures.

Digest submissions and reviews are made using Microsoft Conference Management Toolkit (CMT) website.

How to prepare your INTELEC® 2019 Digest or Abstract

1. Download the MS Word document template from the INTELEC® 2019 [website](#) or [click here](#).
2. Provide the title of the paper/poster and the body of the digest, including diagrams, and tables.
 - Indicate under the title whether you prefer the paper to be for oral or poster presentation.
 - ***Do not*** include authors names or a reference list in this document.
 - If you wish to cite references in your digest, you must provide your reference list as a separate document.
3. Once you have completed your digest, save the document on your computer and have it available to upload into the CMT website. If you use symbols, mathematical equations or complex diagrams in your digest, it may be best to make a PDF version of your document to preserve the text. You can upload the pdf version instead of the Word version. It is up to you.
